

1. **Scheme No.** : **8(7)**
2. **Name of the scheme** : **Regional Extension Service Centre(RM)**
3. **Objective** : Rice Milling is the most feasible industry in the state being an agricultural state and to be economy is depend on agriculture. There are more than 2000 huller rice mills and out of which 1200 were modernized. The modern rice mills benefit in term of more production of white rice, fine production of bran. This will help the economy of the state in the rural massive. A seminar on benefits of modern rice mills is proposed. The centre is fully equipped with modern rice mills and it required additional amount of Rs.11.00 lakh for installing of pulse mills, grinders, oil mills etc. For demonstration units for the benefit and training to the mill owners, awareness to the public as well. This centre will be in a position to give training for all types processing on cereal/grain products in the state.

Manipur is an agricultural State and rice is the prime food of the people. The rice milling industry is very important in the State which has more than 2000 nos. in the authorized sector. The modernisation of rice milling industry is a very important aspect in view of the large no. of rice milling industry. The Regional Extension Service Centre (Rice milling) will provide training, awareness to the public as well as to the rice mill owners about the benefits of the rice milling industry. The RESC has been established with the assistance of the Ministry of Food Processing Industries, Government of India in the year, 1995-96. The State Government has to take over the centre after 5 years of funding by the Centre.
