

1. **Scheme No.:** 8(12)  
2. **Name of the scheme:** Setting up of Codex Cell.  
3. **Objectives:** To strengthen/setting up of Codex Cell in the Ministry as well as at the point of various stakeholders such as State Level Nodal Agencies for food processing industries, designated by the State Govt., Industry Associations, National Research Institutions for enabling pro-active participation in Codes deliberations and adequate projection of Indian view of point in codex system. This includes computerization, compilation and maintenance of codex documents, study/survey for scientific data generation, engagement of consultants for preparing discussion/position papers, code of practices etc. especially for Codex purposes only.

Since the nomination of the Directorate of Commerce & Industries, Manipur as the Nodal Agency for Food Processing Industries for the State of Manipur, there is no Codex Cell to deliver about the importance of codex system in the Indian context. It requires computerization, compilation and maintenance of codex documents, study/survey for scientific data generation, engagement of consultants for practices etc. especially for codex purposes only.

It is, therefore, proposed to set up a Codex Cell in the Food Processing Training Centre, Porompat, Imphal East. The Ministry of Food Processing Industries, Govt. of India is providing assistance of 100% upto 15.00 lakh for setting up a Codex Cell.

Funding pattern : 100% Central for machinery and manpower  
100% State for building & infrastructure

Source of fund : Budgetary support  
Financial

(Rs. in lakhs)
